Are you looking for a fixer-upper with great potential? This property is waiting for the right owner to bring it back to life! With some TLC and a little renovation, this could be the perfect home for you. Located in a quiet neighbourhood in the middle of town, this property has a lot of charm and character that just needs to be brought out. Whilst a new kitchen and bathroom will be required, this property has the bones to make a great investment, including aluminium windows, a private back veranda and easy access to the large backyard which fronts Browns Creek, providing access to the mighty Manning River only a short paddle away. Situated on a large block, you can enjoy the benefits of living close to the CBD without compromising yard space. The property has been affected by the large flood of 2021 (1978 level) however, the super low-price range has taken this into account
