Yes, you read correctly this is absolute beachfront land up for sale! Such a rarity along our coast, particularly in it's natural state with barely a person on the beach. With a stretch along the reserve of 72.7m long, you can build just about anything. The block depth is 34m so loads of room to build a house, shed, studio (STCA)The total land area is 2496 sqm, and located at magnificent Wonga Beach at the end of a cul-de-sac, so this is quiet and private.Build a shed and come and go, holiday let, or have it as a fishing shack with fishermen & fisherwomen can bring their own boat.With water to the front of the block, curb and guttering and underground power this block is ready to go.Alternatively keep this as a Land Bank for the future until you can build that dream beach home. Properties like these are few and far between so don't dilly dally, act now.For further details contact Nicole on 0416 033 948 or email nicole@propertyshopmossman.com
