Recent improvements include a re-paint and quality new carpets. Boasting a large 80's kitchen with room for a dining table; there is plenty of storage, electric hot plates, wall oven and grill and dishwasher. The home boasts two larger bedrooms and a smaller third bedroom off the kitchen-meals space; the separate lounge is a good size and an added bonus is ducted gas heating and evaporative cooling throughout. The recently renovated modern bathroom is of good size with shower, vanity and toilet. There is storage in the laundry as well as an additional toilet off the laundry. Outside is a single carport with automatic roller-door and rear access to the back yard. A nice big enclosed back yard.
