It's a stunning new interior that welcomes you to modern living in this 4-bedroom family home just an 8min walk (652m) to Vermont South Shopping Centre. Beautifully finished in Calacatta marble look tiling across the kitchen and bathrooms, elegant timber effect floors and LED lighting, the fresh new look is matched by lovely natural light for relaxed family living in the Livingstone Primary school zone (STSA).The fully renovated single level brick veneer offers bright bedrooms including a master bedroom at the front with lovely garden outlooks and a glamorous ensuite with an enclosed shower.The galley kitchen set at the heart of the home wows with seamless white cabinetry, a striking Italian marble inspired splash back, and Technika appliances including a wok burner gas cooktop.Two separate living areas give the family plenty of space, with the family room opening to a paved pergola overlooking the mountains.Fully featured with central heating and cooling, 24 solar panels, an extended gated driveway and lock up double garage. All the renovation work is done so you can simply enjoy the beauty and comfort of a contemporary setting, superbly placed close to all the essentials: in walking distance to the shopping hub, medical clinics, bus and tram connections, and popular schools including Vermont Secondary College, Highvale and Emmaus College.
