\$227,500

This double brick and iron home sits on a 1012sqm block in one of the most sought after areas in Narrogin!!! This home has had some extensive renovations over the years, you could just move in. Step into the foyer of this home and you will be led to the lounge that has window treatments, and R/C air conditioning. Through to the kitchen and there is a 1200mm stainless steel oven and plenty of cupboard space. There is a separate dining room off this but if you don't need a dining room it would make a great office as it is central to the whole home. The front of the house is where the master bedroom is which also has its own R/C air conditioning. The bathroom has been updated and there is a second toilet and a shower space off the laundry. The second bedroom has R/C air and there is a 3rd bedroom at the back of the home. Step outside and it is a blank canvas. There is a shed in place and the property has rear lane access. The location is within walking distance from all shops, schools and sporting facilities in a cul-de-sac location where not many properties come on the market.
