This beautiful brick classic is in a blue chip location right in the heat of schools, shops, transport and recreation. The house is your typical 70s built to last and features polished boards throughout. The north-facing living soaks up the winter sun and leads through to the neat kitchen/meals and small family room. The hallway leads to the three bedrooms and oddly has a separate bathroom, shower room and toilet. All original yet in top order, the home is positioned on a large 654sqm plot that houses the garage, lovely garden and offers scope for further extension if required. A home of the ages positioned for your future.
