The 4-bedroom home with ensuite has had great renovations with a new kitchen and floor coverings installed in the past few months, the living area is open plan facing North East. The home has a secure backyard for children or pets. The home catches the morning sun to mid-afternoon keeping the home warm and pleasant. With neutral colours you could move into your dream home with nothing to do. The double garage could be used as a rumpus room for children to enjoy. The property has great neighbours.
