\$670,000

Need anything more? This near new home will be perfect for the family; with a large fully fenced and grassed yard with side access for cars, boats or caravans etc. There is also an oversized double garage with internal access and a hard stand at the front of the property. The quiet and private street has a number of families already in residence and is tucked away toward the back of Cannonvale, but only minutes away from everything you could need. The fully air-conditioned home also features built-in robes in all of the bedrooms, with the master also having its own ensuite. There is a large, deep tub in the main bathroom for a relaxing soak, and the wet areas and living areas are all tiled with carpeted bedrooms. The home is going to be vacant come March 2024 - so you can move straight in, or purchase it as an investment and with the high rental demand, it would be sure to fill fast. Either way, call Simon now as this will be sure to go quickly...
