The impeccable presentation of No. 7 Plymouth Street compliments the exceptional quality of the four bedroom plus study home. The appointments, additional features and total landscaping are now presented at their three year best. The comprehensive and spacious floor plan encompasses two living areas, a luxury master bedroom ensuite, family bathroom, powder room, walk in pantry, storage room and a direct access covered outdoor entertainment area with quality BBQ plus ceiling fans. The quality fittings and features are extensive and include the latest Italian quality porcelain finishes to kitchen surface, and bathrooms and other areas. The accompanying photo gallery better describes the extent of the beautiful appointments at No. 7. Ducted refrigerated reverse cycle heating and cooling, instant gas HWS and a focal point gas log like space heater with porcelain surround provide those essential family comforts. Also at the top of the quality list are soft close drawers, porcelain bench tops, best quality Miele dishwasher, gas cook top and Bosch oven. The latest in window louvres add another luxury finish. A huge bonus is the mineralized in ground swimming pool with glass enclosure and dedicated plant room, set in an auto watered established garden. The two car garage has an additional rear roller door access. A security system with cameras is fitted to the property. An outstanding property in every respect.
