In a beautiful new homes subdivision, this elevated block at the top is the last remaining block. Nestled amongst impressive new homes, this is a golden opportunity to build your impressive home in an impressive location. Gently sloping enough to give splendid views of Fredrick Henry Bay and the ocean, this block is also already cleared and would easily take a variety of home designs depending on individual requirements. There's already an established driveway which will help make building and development easier. A recent soil test is also available, which will not only save you more expenses, but it will make it easier and cheaper to make a decision on so many matters and also make it easier for your builder to quote. As this is the last available block and possibly the best block in a very sought after subdivision you will need to be quick on this one.*The information contained herein has been supplied to us and we have no reason to doubt its accuracy, however, cannot guarantee it.
