Boasting sprawling, wrap-around veranda's on three sides, this outstanding Queenslander Style Home is oozing with character and charm, and complemented with soaring 3.3m or 10ft high ceilings which are impressive. The timber floors, combined with the original tongue & groove timber walls inside, create an atmosphere of timeless beauty! Surrounded by native plants, an abundance of birdlife, this very private, elevated property offers the most amazing views of the distant rolling hills & countryside, and our popular Mt. Larcom, but at night the lights over the Gladstone City are breathtaking. This would have to be one of the most exciting, unique properties that we've had the pleasure of presenting to buyers, who are passionate about Queenslander's. The kitchen has timber bench tops and cupboards, double sink, step-in pantry, electric stove and a spacious dining and living area which is open plan. There are plenty of louvres and windows which allows the breezes to flow all year round, and you can take in the views from every window. There are four bedrooms in total, the Master bedroom has built-in robes and an ensuite, and the home is complemented with timber floors, plus there are two sunrooms so if required you can turn one of those rooms into a fifth bedroom, a sewing room, or perhaps an office. Downstairs, a haven for car enthusiasts and hobbyists awaits, with undercover parking for four cars and ample room for a workshop or additional storage. Perfectly suited for business owners seeking extra space for their endeavours, this lower level offers boundless possibilities for utilisation. Whether enjoying a morning coffee on the veranda, hosting gatherings with loved ones, reading a good book on a deck chair, or simply relishing the quiet moments of reflection, this property promises an unparalleled lifestyle of comfort, elegance and it's an absolute pleasure.
