Located in a quiet Cul De Sac street and oh so close to the Lucinda foreshore without the maintenance of a direct beachfront position is this fantastic home. Built in 1990 by renowned Ingham builder John Leonardi the open plan design of this home suits the location and is in as good a condition as the day it was built. Tiled floor throughout, two pack kitchen with plenty of built in cupboards and air conditioning throughout are just some of the features. Open up the front door and see the ocean and the Lucinda jetty from the front patio. A secure breezeway leads to a large drive through double lock up garage with electric roller doors. Out the back is a block storage shed of approximately 7m x 4m with power that could be repurposed for another use. Established mix of citrus trees and gardens in the yard will keep the avid gardener happy as well. Arrange your inspection today.
