Auction

Welcome to this low set 3-bedroom brick home, ripe for your renovation. All very serviceable as is, however, lends itself to an easy makeover if you wish. In total there are 3 big bedrooms, open plan living area, separate dining room, family room and kitchen overlooking your outdoor undercover entertaining area which is ideal when friends drop by. Plus, it has a great floor plan with easy visibility watching your kids play in the level backyard (612sqm grounds) from your living area. And with a garden shed and established plants, it could be the ideal home for those that like pottering around in their garden. Yes, so much to like but could easily transform into your new home. And you can't beat the position as it is situated near fast city transport, local schools, shops, cafes, restaurants and so much more. And with a vendor needing to sell, it could be the perfect opportunity.
