From the moment you enter, this is exceptional to the rule. Open living and dining areas welcome with luxurious details and contemporary beauty. Overhead, streamlined pendant lighting shines with artistry. Underfoot, Herringbone flooring leads to natural stone at the base of the room's centerpiece: a marble fireplace that warms with superior efficiency.

This is a space for relaxation and entertaining at your leisure. Complemented by a warm palette, ceiling speakers and high skylights, you'll find it's perfect for unwinding in; and inviting others to do the same.

Functional and beautiful, the wide kitchens exude smart sophistication. Oak flooring, narrow-reeded glass and natural stone brings layered authenticity. Miele appliances are fully integrated to make the most of the space - and provide optimal practicality. Ample storage is cleverly concealed beneath bespoke joinery; while front and centre, the curved island marble bench creates a stunning statement.

Calm and spacious, the bedrooms welcome with a tranquil ambiance. Embraced by a neutral palette, they're the perfect canvas to add those personal touches and truly make your own. With 100% New Zealand wool carpet underfoot, comfort and sophistication are in plentiful supply. Particularly in the master bedroom; its fluted-glass wardrobe is lit from within, complete with jewellery drawers and digital safe to lock valuables away
