\$310,000

Conveniently located just east of Highbury townsite and not far from Narrogin, this approximately 100 acre property will amaze you with its country lifestyle possibilities. Set up by a previous owner with an elevated studio apartment, there is good indoor and outdoor space, with kitchen and bathroom facilities, air conditioner, wood fired heating and gas HWS. From the north facing verandah you can see that only the minimum has been cleared to leave a relaxed, semi cleared area around the house and shed, while the bush appears neat and tidy and open enough to enjoy safely. There is a solar electricity system installed and mains water is connected. Sheds include a 6m x 6m lockup double garage with concrete floor, 3m x 3m power system shed and five 20' sea containers are included. It's not often we list something as easy to use as this property - don't miss out!
