\$1,250,000

Embraced by lush gardens and boasting windows galore, the interiors of this impeccable single level home are flushed with natural light and afforded leafy outlooks every which way you turn. Set amongst almost 600sqm of beautifully maintained greenery, there is also the ultimate summer appeal of a solar-heated pool beneath towering shady palms. Spacious and zoned for optimum function and livability, the floorplan flows past the first of four bedrooms plus a formal living and dining area to the glorious entertaining zone. With so much glass luring in streams of sunshine and capturing poolside vistas, this space also includes a large kitchen with long island bench and quality stainless steel appliances. Outside is an alfresco area and sunny patio perfect for taking your guests into the fresh air as the kids enjoy a swim. The master bedroom benefits from generous amounts of built in wardrobing and a bright ensuite with oversized shower, while the remaining bedrooms and a sparkling family bathroom are tucked away to create an ideal kids' wing. Fans and robes in all bedrooms, ducted heating throughout and a laundry with yard access are all included together with water tanks and a remote controlled double garage. In a prized pocket close to schooling and transport, this family gem is also within easy reach of major shopping options and the freeway.
