**\$348,000**

When you walk inside you will just love what you see. There has been so much done over recent years that it is really just a matter of moving in and enjoying all that has been done. The light filled interior is highlighted by a fabulous lounge room with vinyl plank flooring, a wood heater and split system air conditioning. The impressive kitchen has been extended to offer more room to move and to chat over a cup of coffee at the nearby dining area. All 3 bedrooms have built in wardrobe space and the family bathroom is best described as spectacular. There is the added bonus of security cameras and 2 toilets in the home. All soft furnishings are in excellent order and the presentation throughout is first class. The secure rear yard boasts a 8m x 5m powered garage/workshop with undercover parking for the boat or van and a decked patio is perfect for the afternoon barbeque. All of this in a convenient location close to shops and schools.
