Revisit the past enjoyed by those who built in the 60's in a delightful residence with big picture windows, timber floors, skirting boards and architraves, set on a big piece of land (802sqms) with plenty of off-road parking, space for an extensive garden at the front and a private backyard.Modern times require more convenience, comfort and technology, though. To make the property more contemporary, built-in robes, reverse-cycle air conditioners, sliding glass doors to the outside, gas hot water system, gas points, a 6.64kW solar array, an additional carport and a remote sliding gate have been installed.A powered brick workshop, located at the rear of the block, is super handy.
