This lovely newly renovated brick veneer home is now ready to move into. Situated on an enormous over 2000 sq block, it also includes a separate front 'heritage' cottage which could be used as a granny flat, extra bedroom, large studio, guest accommodation or large work from home office space. The home itself includes 3 spacious bedrooms, family bathroom, sunny kitchen and dining and a light and bright open plan living room which leads onto a big covered entertaining deck overlooking a mature and well-established garden and distant views. There is a large double garage with roller doors, concrete slab and power and plenty of scope for extra garaging or future house extensions. Blocks this size are becoming a rarity, this is a great first home buyer opportunity or beaut house for a tradie who might need provision for extra shed space.
