Parkings: 1

Area: 1015 m2

Type: House

Kim Burton

\$495,000

This surprising family home gives little away from its street frontage, located high on the hill in a family-friendly neighbourhood, this easy-care brick home sits on a fully fenced 1,015 sqm block, inground pool and just a few minutes drive to town amenities. The home comprises 4 built-in bedrooms, a completely renovated bathroom, open plan living, dining and kitchen adjacent, home office/sunroom, separate laundry, rear covered alfresco entertaining area with views over town. Modern conveniences throughout include ceiling fans, air conditioning, built in storage and warm neutral tones. Outside, the property does not disappoint either. The inground pool overlooks town and rear laneway access allows for backyard access with room for a shed. 4kw of solar on the roof assists in keeping running costs down. Equally desirable to those looking for a place to call home or the investor in the market for a very rentable investment property.
