Parkings: 2

Area: 2023 m2

Type: House

Logan Steele

\$310,000

Unique block that stands out because of its size and ideal location on the corner of the park, coupled with a very spacious and liveable house with indoor and outdoor entertainment areas. 31 SOLAR PANEL SYSTEM. 2 air conditioning units. Features a big open plan kitchen and family dining area that steps out to an indoor/outdoor verandah area overlooking the park and with views through to the mountain ranges. The large living room is also positioned to make the most of the views with both exterior facing walls lined with windows. There are 3 really good-sized bedrooms plus another central room that would be better suited for an office because of its position but could be used as an additional bedroom. The home is still fairly original and in great condition for its age. The eat in kitchen has new vinyl flooring throughout. A wood fire box provides heating in the colder months. There is a detached store room which could be a good games room or art studio perhaps. A double bay garage with remote control opening provides 2 car accommodation and workshop space. To organise an inspection, call Logan Steele on 4681 3311.
