\$782,500

Why complicate things when success can be so simply, stylishly achieved! This inviting modern townhouse reflects an approach that matches ease to elegance throughout dual level, low-maintenance spaces complemented by a location of exceptional convenience. Downstairs living and dining areas featuring polished floorboards and reverse cycle heating/cooling include an open-plan kitchen where stone benches, stainless steel appliances and tiled splash-backs convey contemporary quality. The upstairs dimensions deliver 3 bedroom, 2 bathroom accommodation including a main bedroom with a walk-in robe and ensuite while the central bathroom's size, style, separate bath and shower enhance the desirability of this home's design. A courtyard backdrop, a distinctive façade, secure garage and additional parking are further assets of an address offering ideal proximity to Hansen Reserve, Corpus Christi and Kingsville Primary Schools, transport routes and Somerville Road cafes.
