**\$380,000 - \$400,000**

Finally! an affordable first home or first investment property that won't break the bank. Situated within walking distance to Wallans main street and in a group of 8 units, this little gem is full of surprises the best of which is the dual street access and a huge of parking. Not only does this great unit have driveway parking, it also has a double garage plus side access to park cars, boats, trailers and anything else you can imagine behind private gates. Internally the property is neat and tidy and ideal for downsizers, first home buyers, single buyers and investors, in fact there is so much to like about this unit that i would highly recommend you come and have a look yourself!
