\$660,000

An excellent offering to the market is this modern three bedroom villa in a great location just metres away from Stockland Shopping Centre. A great opportunity for anyone without transport but looking to downsize and retain their independence. Positioned at the very end of Angel Close this location is both quiet and extremely convenient. Three generous bedrooms, all with ceiling fans and built in wardrobes plus ensuite to main. Family sized main bathroom and separate toilet services bedrooms two and three. Air conditioned, large open plan living with dining flows directly to a substantial undercover alfresco area. A second courtyard opens into the double car garage providing drive through access which would be suitable storage space for a trailer or small boat. Hardwearing flooring throughout with laminated floating floor in the bedrooms and stylish tiles featuring in the living areas, kitchen and internal laundry – great for those with allergies or who prefer hard flooring over carpet. Lovely gardens surround the property adding a screen of natural privacy and a lush outlook from most of the home. A really neat villa in a great spot that is surprisingly quiet given it's super convenient location. Be sure to add this one to your list.
