Really well-designed family home with big living spaces, walk through kitchen and an expansive outdoor entertainment area. The layout works really well with all the bedrooms sectioned off to one side of the house and the living flowing effortlessly from the front door to the back verandah. As well as having large living areas, the home also features a king size main bedroom with floor to ceiling built in robes and an ensuite. The other 2 bedrooms also have built ins and easy access to the main bathroom and separate lavatory. The large undercover verandah stretches nearly full the length of the house and has two doors accessing the interior living areas, doubling the overall entertainment space. The house is extremely well insulated and also has a central wood fire box as well as air-conditioning for year-round temperature control. Great family home with many great features. An inspection is a must. To organise call Logan Steele on 4681 3311
