In a premier location this (near new home, built in 2022) is superbly located in an elevated and peaceful cul-de-sac position. Reminiscent of the 'Hamptons' style this residence is nestled on a large 935sqm block with a north facing aspect which means it is bathed in natural light and gorgeous winter sun. The huge entry takes you from the front sitting room to a large open family room, dining and kitchen area featuring massive corner sliding glass doors that completely slide back for effortless transition to the sun drenched north facing deck, fabulous for entertaining. The big designer kitchen features stainless steel appliances, a 6 burner gas hob and electric oven, a long island breakfast bench, Caesarstone benchtops and a large butlers pantry with sink. Defined by generous proportions and luxury bathrooms there are 4 spacious bedrooms all with robes and a 5th bedroom or study. The master suite includes a full-length glass picture window and a stylish modern ensuite with large shower and separate WC. Ducted heating and cooling throughout plus a double lockup garage with remote roller doors and internal access to the laundry and kitchen. A wonderful opportunity to secure this 'near new' family home in this sought after enclave.
