\$190,000

10 minutes to the CBD, 10 minutes to the ocean, is there anything else you need to know? As far as a position to build goes, it doesn't get much better for those seeking week day convenience while still being moments from the ocean. Pairing that with the potential of a corner block, makes for a fantastic starting point for the next family home or investment property. Approximately 33mx22.5m with 2 street access, the block has previously had a house to it with power, water and sewerage only now it's a clean slate for your next big endeavour.
