\$375,000

Spacious 3-bedroom home that's been tastefully renovated and looks brand new inside and out. Fitted with an expansive kitchen that flows onto the dining area and large living room - great for entertaining. Down the hallway you've got 3 large bedrooms and a fully refurbished bathroom with separate lavatory. The house has floor to ceiling windows and glass doors that allow a lot of natural light to flow in. There's a single lock up garage that leads through to an old shed in the backyard that could easily be turned into a workshop / art studio or simply extra storage space. The fully fenced yard is easy to maintain and has some well-established trees as well as plenty of room for kids and pets to run around + space for a large rear deck. This is a really nice property in a good location. To book an inspection call Logan Steele on 4681 3311.
