Stone benches can add a touch of luxury to a kitchen and provide a durable and stylish surface for food preparation and cooking. Large appliances can be more efficient and effective for cooking and cleaning. There is side access allowing room for a shed or pool as well. A two-storey home can provide extra privacy and separation of living areas, with the bedrooms and one living area being located upstairs and the other living area downstairs. Views are always a great feature, and can make a home feel more luxurious and relaxing. Having both a double garage and a double carport means that there is plenty of covered parking available for vehicles. Not to mention the storage area or work shop potential under the home. An outdoor entertainment area can be a great feature for those who enjoy hosting guests or spending time outdoors. A fire pit is a lovely addition to an outdoor entertainment area, providing warmth and a cozy ambiance.
