Having been loved by the one family for 40 years, this stately, three level, meticulously maintained abode has all the ingredients for family comfort and serenity. First of all, it's cool, and quiet. The easterly breeze and hilltop position ensure your family's bliss right through the hottest months (of course, there are fans and a/c too), while the cul-de-sac location keeps car noise to a minimum. On top of that, there's more space here to spread out here than in your typical Stafford Heights home. Having four bedrooms, several indoor and outdoor relaxation zones, a lawn for ball sports and not to forget your sparkling freeform pool - what more could you want? (Oh and there's a couple of spots for work-from-home people too.) Get ready for the entire family to demand Christmas at your place this year! YOU'LL LOVE . . . + The robust slate floors, with plush carpet underfoot to take you through to the bedroom level upstairs + The glass beaded finish to the newly refurbished salt water pool + Sitting on the front balcony with a cold drink after mowing the lawn, then a bbq and a swim in your covered outdoor entertaining area + Keeping an eye on the kids in the pool while prepping Sunday lunch + Your recently replaced solar inverter, solar panels and wired camera security system INSIDER'S SECRET . . . + We think a pergola to cover the front terrace would add to your enjoyment levels! Also included are the pool robot and associated items.
