\$525,000

Well positioned in a great family neighbourhood, this modern brick veneer has immaculate presentation throughout and is set on a large 900 square metre block with plenty of space for a large garage and workshop. The floor plan features 4 bedrooms including a main with walk-in robe and ensuite, attractive kitchen with island bench and walk-in pantry, an open plan living and dining room, and reverse cycle air conditioning. There is also a back to grid solar energy system to assist with the power bills. There is a large rear deck for entertaining, 2 garden sheds, a kids cubby house, and ample off street parking. A perfect start for a young family.
