Boasting a magnificent waterfront location where the Twin Waters lagoon and one of its tranquil sidearms meet, this extraordinary residence feels as if you were on the banks of an idyllic river mouth. An astonishing panorama reaches from the peaceful canal behind gently swaying branches of established trees, to the wide and open expanse of the main lake, where the afternoon sun dances across the softly rippled water. The views get ever more dramatic before the sun sets far away behind the Western shores and are best enjoyed from your deck right at the water's edge, celebrating the moment with a cocktail in your hand. Designed to capture the views and enhance the glorious aspect from every angle, the home provides an effortless flow between the bright interior and the surrounding alfresco areas, with an open terrace overlooking the lake and with a more intimate all-weather entertaining area next to the heated pool. The interior is awash with light from large banks of bifold doors and a second row of windows high up in a void. The master suite offers another interpretation of the water views, with large sheets of glass to the main terrace and stylish banks of louvres to the lake. The guest quarters are strategically placed to provide space and privacy. A timber staircase to the upper level reveals a lavish and versatile retreat with two spacious bedrooms, a second bathroom, a large landing and breathtaking bird's eye views. Another ensuite bedroom is well secluded on ground level towards the front of the home. With an ingenious floorplan, epic views and careful consideration of all practical aspects including an abundance of storage, this home is a true masterpiece and a perfect match to its privileged waterfront location. Lakeside residences of such timeless beauty are in high demand for their exclusive lifestyle and capital appreciation. Act quickly and call Lydia for your inspection.
