READY FOR OCCUPATION. Spacious and Secluded. A long fully-fenced driveway leads down to your first view of this spacious brand-spanking new home. FEATURES. This is a good-looking, terrific big home, with its good-sized 4 bedrooms. Note the front verandah, the mudroom, and a big loungeroom showing off decorative panels. You can use the home as a 3 bedroom plus a big study with a private bathroom. The lounge is a good size, measuring 6m x 6m. How about an ultra-modern kitchen with a spacious dining room? There is a stone benchtop, semi-integrated dishwasher, 900mm oven, and big gas hotplates. There are many cupboards in the stunning kitchen. Don't forget that big butler's pantry, too. There is much more to offer. HEATING. This will be a warm house, economically heated by a combination of "super-duper" insulation, double-glazed windows, and Six (6) split-systems.. DESIGN. The design is a classic "u-shape," and there is good reason for that. The rear faces north, and our design ensures that the master bedroom catches the early morning light; additionally, the master bedroom and some other rooms live with that most of the day. The big "U" allows for a wide light court, enabling the flow of natural light into much of the home. LOCATION. The location is excellent. It is but a short walk to the heart of the village of Trentham, so well-known for its gardens, historic homes, cafes and various other coffee and eating places, plus the old historic hotel and community atmosphere. This is a rare bird, this sparkling new home, and it is available now at an affordable price. Talk to us today. Ring Anne.
