Impressive from the outset and positioned on a generous block, this inviting family home reveals an abundance of accommodation with ample space for family living and outdoor entertaining. Expansive living areas highlight the functional design with formal and informal options to accommodate all members of the family. The kitchen features stone benchtops with excellent storage and bench space including an island bar, a 900mm stainless steel appliance range and butler's pantry. All three bedrooms are intelligently zoned away from the living areas, the main bedroom is suite sized with a luxury ensuite featuring twin vanities, heated floor tiles and large fitted walk in robe. Secondary bedrooms are also generously proportioned with built in robes. Step outside to a substantial, all weather outdoor living area and an established low maintenance yard perfect for entertaining family and friends. Comprehensively appointed with a 5kw solar system and Tesla Powerwall with all external/internal walls insulated to keep energy costs to a minimum. Gas central heating, evaporative cooling, cat 6 cabling for direct internet access and a remote double garage with rear roller door access compliment the home. Located in the popular Harpley area within close proximity to schools, childcare, shopping and recreational facilities.
