\$1,520,000 - \$1,620,000

Framed by manicured gardens and a sprawling native wonderland, an unfolding of family parameters presents in spectacular fashion with an indoor-outdoor lifestyle at the heart of design. With a Woodlands address appealing to those seeking a true tree-change, a convenient position centres Mount Eliza Village and Frankston's major retail only a short drive from home. Bringing to life an interior of warm neutral tones and raw timber accents, tree-top aspects greet with ample glazing across a dual-level layout destined for easy living. A duo of generously-proportioned entertaining zones afford all-occasion entertaining, adding to the space with an open dining space and a true entertainer's kitchen, where stone benchtops, a self-cleaning oven, custom joinery and an expansive island meet premium culinary desires. Carrying accommodation in every direction, the home presents a master bedroom with ensuite and walk-in robe, a central bathroom, and two secondary bedrooms, one perfect for guests or teenagers with ensuite. A separate studio offers private working space or gym, if desired, while additional features continue with gas ducted heating, wood fire heater, split-system air conditioning, and a four-car garage with additional off-street parking. Pushing outdoor enjoyment to every corner of the 2,840sqm (approx.) allotment, hard-landscaping sees meandering pathways to a formal front garden and a whimsical oasis with creek, bridge and backwoods. Set only moments from Mount Eliza North Primary School, St Thomas More Primary and the Humphries Road Top Shops.
