A 40-Acre Slice of Paradise with Endless Potential

Leave behind the chaos of daily life and retreat to your very own patch of paradise with this stunning 40-acre parcel of vacant land. Heavily treed and tranquil, you will feel a million miles from the hustle and bustle when you call this secluded sanctuary your very own.

Extensive earthworks have already been completed with tracks and multiple building pads added to the site allowing for ease of access. An expansive lake-like dam adds to the picturesque appeal with a large cleared waterside pad that's ideal for those looking to build your dream home, a cosy cabin (STCA) or simply park up their caravan and get away from it all. Imagine long lazy summer days spent swimming off the floating pontoon and jetty as you make the most of this serene setting; it doesn't get much better than this.

Currently, there is no power to the site however power does run through the property for convenience or you might look to create your ultimate off-grid hideaway. A meandering driveway connects you through to the back of the block where you will find a 6x9m shed with a 3m lean-to that provides added storage for all your equipment.

You're just over five minutes from the quaint township of Bauple and Gympie is approximately 40 minutes away.
