**\$639,000**

What an amazing find a huge home on 2665m<sup>2</sup> of land that goes right down to the Ross River. Arguably one of the largest and best positioned blocks on the river this property has been owned by the sellers since it was built and it benefits immensely by having a new owner who will renovate and update the house and enjoy the lifestyle it will allow. There are 4 bedrooms, three bathrooms and a big office which will suit a growing family. Downstairs there is a roomy living, dining and family area with a centrally located kitchen which has access to the rear patio area. Upstairs the beautiful hardwood floors will thrill the new owners. All of the bedrooms are of very generous proportions and the main features an en suite. The block is massive but needs clearing so that the full river vista is visible. Whoever buys this property will renovate the home and landscape the block to reap the rewards. You will never be disappointed with its position. Call now to make a time to view this property.
