Nestled in the picturesque Macedon Ranges, Oak Tree Cottage is a delightful four-bedroom, two-bathroom home that exudes charm and character at every turn. This inviting residence is a beacon of light and warmth with its north-facing aspect that bathes the interior in natural sunlight. The heart of the home is a charming country kitchen adorned with a stone benchtop, where you can prepare meals while enjoying views of the stunning garden. Step into the formal sitting room, complete with an open fireplace that adds a touch of elegance and coziness to those chilly evenings. For year-round comfort, you'll appreciate the gas ducted heating and 2 split systems, ensuring the perfect climate regardless of the season. But it's the garden that truly steals the show at Oak Tree Cottage. A botanical beauty, it's been thoughtfully divided into garden rooms, each with its own unique personality. Immaculate hedges frame lush green spaces, while a hot house and vegetable garden cater to the green thumb in you. A feature weeping cherry tree stands as a centrepiece, and the garden is a tapestry of colour and fragrances that dance with the changing of the seasons. Convenience is at your doorstep, with a train station, schools, and shops all within easy reach. Oak Tree Cottage offers the perfect blend of country living with modern comforts, making it a place where memories are created and cherished. Don't miss the opportunity to call this charming retreat your forever home!
