An extensive range of initiatives ensures Bastings Street reflects Best Practice Environmentally Sustainable Design as assessed by the Built Environment Sustainability Scorecard (BESS), which considers energy and water efficiency, and thermal comfort.* Fossil Fuel Free in operation* 7.5 Stars average NatHERS rated* Solar panel array * North-facing courtyard and living* Double lock up garage with loads of storage* Individual facade design* Large community spaces* Basement utility rooms* Individual reverse cycle air-conditioning throughoutEvery home will have its own solar panels as standard. There will also be the ability for individual battery walls, hydronic heating and ethical interior specifications. Drawing from the rich architectural tapestry of High Street, the concept seeks to narrate the historical era with a new contemporary language incorporating re imagined motifs and materiality.Call or e-mail for a detailed information pack.
