This property is truly one of the most delightfully secluded residences ever! It's almost as if you have no neighbours, a brilliant family home resort where every day's a holiday. Multiple living zones throughout the three-level property provide personal space for everyone, the "together" zone is the most impressive, boasting a strong indoor/outdoor feel over expansive floor space, on entry level. On arrival you weave your way through the peaceful landscaped gardens to the front door and you're speechless as you look out to the treetops, hear the waterfalls, catch the cool breezes, and are entertained by the abundant birdlife. Or you can entertain yourself around the pebble pool, Bali hut and pool house with ample space to enjoy. Lashings of style throughout this architecturally designed home provide the seal to the impressive nature of this unique residence. The lower level presents as potential dual living for extended family or a teenagers retreat and flows out to the pool surrounds. Live conveniently close to the Alex Patrolled Beach, the iconic Headland Golf Course, Buderim Private Hospital, private schools, Woolies, shops, restaurants, and sporting fields. Hide yourself here!*
