\$1,050,000

Vermont has a glamorous new enclave of new town homes at 2A McClares, and number 9 sits proudly towards the front. It's the promise of an exciting easy-care lifestyle, a 5min walk to Brentford Square shops in the high-demand school zone for Vermont Primary and Vermont Secondary College (STSA).The tri level design makes for majestic architecture - with a statement façade in light and dark contrast - as well as practical, smartly zoned living for both young families and downsizers.A beautiful north facing living space and entertaining terrace create a radiant open plan setting with a showcase Miele-appointed kitchen styled in gorgeous on-trend grey stonework, plus extra storage in the walk-in pantry.The sparkling new town house is family sized with 3 bedrooms (ground floor master with ensuite), a huge laundry, double garage with internal entry, and a paved rear garden landscaped with fragrant jasmine.It gives you room for kids (your own or your grandkids) with a low-maintenance lawn-free garden that frees up time to enjoy coffee dates, weekend sport or the cinema.Exclusive Zumi toilets, stone benchtops, Oak engineered floors and fitted robes add to the luxury setting.This highly central pocket lets you walk to bus connections on Canterbury Rd, parks, playgrounds, the tennis club, supermarket, chemist, GPs at Vermont Health Care and of course the district's top performing government schools which make this catchment so desirable.
