If you are looking for a great block to build your dream home, or transport your new house, then this is the place for you! Overlooking some parkland cleared bush that runs alongside the Avon River, you would have the opportunity to create a beautiful homestead and maximise some potential views where other new homes on the street are double story. On 1459 sqm, it's a great location in a fabulous town, close to the main strip, with IGA, Hotels, Medical Centres, Library and CRC, and abundance of sporting facilities and a superb community of friendly people with new dining venues set to open soon! One of the cheapest blocks of vacant land in Beverley, but for its size and location, it should be on the market with a higher price.... Get in quickly, as this is a great deal and our seller is ready to negotiate! Power is available, currently the block would need water tanks but please ask me for more details about the scheme water connection.
