\$960,000

This gorgeous 4 bedroom (with an optional 5th) 2 bathroom family home has a modern, light and bright feel, stunning views at every turn, tranquility in abundance and an entertaining area that is second to none which includes a veranda offering panoramic views complete with its own bar plus a separate pool, spa and meals area with built in bbq. From the minute you walk in the front door the feel this home gives you is 5 star. The main living and kitchen are at the heart of the home and offer a cosy and comfy area to unwind and take in the view offered. There is a lovely wood fire for those winter months whilst the alfresco flows from the main living and offers a decked area with built in bar and plenty of room to add seating or a pool table etc. The minor bedrooms are all a great size and come with built in robe space except the 5th bedroom which could also be used as a kids activity area or home study. The master bedroom has split system air conditioning and a renovated ensuite bathroom. The view from this room is something anybody would want to wake up to. There is a second living area to the front of the home that can be used as a theatre room or sitting area. The outside of this home offers as much, if not more than the inside. There is a powered 5.5m by 3.3m shed next to the home and a unpowered 9.5m by 7.5m workshop just off to the side. As mentioned the alfresco is huge and at this point any words I write do not do this area justice. It is something that you'll need to see for yourself.....For more information on the Bullsbrook area copy and paste the below link into any browser.....https://en.wikipedia.org/wiki/Bullsbrook,_Western_Australia Features Include: - Stunning kitchen and main living area complete with split system air conditioning and wood fire- Master bedroom is spacious and offers amazing views over the block and comes with a renovated ensuite bathroom - Minor bedrooms are all big with built in robe space - Optional 5th bedroom / kids activity area / study - Second living area / sitting room- Main bathroom with shower and bath - Laundry with storage- Separate main toilet - Outdoor decked area off the main living with stunning views and built in bar - Fully fenced in-ground fibreglass pool (9.5m x4.5m) with outdoor spa and 8m by 4m BBQ area- Powered 5.5m by 3.3m shed by house with air conditioning - Water tank is approximately 120,000 litres - Unpowered workshop which is 9.5m by 7.5m shed with a concrete floor- 5 kw solar system - Electric storage hot water system
