This comfortable family home is situated on a large allotment of approximately 1800 square metres with plenty of garden space at the rear to create an orchard and expansive vegetable garden or, work from scratch and create a beautiful garden oasis. The home itself is of brick veneer construction and sits proudly nestled into the pretty front gardens, creating an impressive and inviting appeal. Walk through the front door to the master wing of the home which features an entry hall, formal lounge room, huge master bedroom with ensuite and walk-in robe. Step a little further into the rest of the home and be amazed at the spacious living areas. The recently upgraded chef-style kitchen with dishwasher also features a newly created butler's pantry – great for storage and keeping the main kitchen neat and tidy. The kitchen opens onto a dining room which, in turn opens onto a huge family room and also is the access to the gorgeous outdoor entertaining area and fernery. On the opposite side of the dining room is access to a passage leading to the massive second bedroom and main bathroom. There is also a smaller third bedroom accessible from the kitchen/dining area. The home has reverse cycle air conditioning, garage under the main roof, a large 2 Bay shed, greenhouse, raised garden beds and an enclosed area idea for a chook pen or growing vegetables. It needs to be mentioned that all areas of the gardens are organic and have not been sprayed.
