Asking \$435,000

9 Coraki Street is an attractive and well-maintained house located in East Devonport. It sits on a good size parcel of land measuring approximately 797m². The house consists of three bedrooms, two of which have built-in wardrobes, while the third bedroom has a free-standing cupboard. Two of the bedrooms also have external access directly leading to the outdoor entertainment area. The centrally located bathroom has been thoughtfully planned out for both space and practicality. The open-plan kitchen and dining area is equipped with a wood heater for those cooler months, an abundance of natural light, and flows through to the good-sized lounge room. The kitchen is practical and inviting for any member of the family, with quality appliances, soft-closing drawers, and lots of storage options. The walk-through laundry, located at the rear of the house, also provides additional storage options... as most of us know you can never have enough! Overall, this house has been extensively renovated with great attention to detail, whilst retaining just a couple of its original features. The property has a fenced and gated backyard with stunning gardens and plenty of off-street parking for additional vehicles, boats, caravans, or trailers. It also features a single garage, which is currently being utilised as a workshop, as well as several smaller sheds, a semi hothouse and raised garden beds. All you need to do is move on in and enjoy as all the hard work has been done! To schedule your private inspection, contact the listing agents today!
