## Contact Agent

Hidden in one of Invermays forgotten streets and the closest street into the city, 9 Gordon Street will suit a multitude of uses including first home buyers, investors and down sizers. The neat and comfortable residence is one of the few homes in the street that features its own off street parking and garaging both of which are added bonuses. New carpets throughout, fully repainted in and outside, huge bathroom and very functional kitchen are the pluses with this lovely cottage. A very motivated owner is looking for early offers prior to the auction and consideration will be given to anything genuine. Call today for your private viewing.
