\$562,000

Watch the water, see the sea and love this location, literally across the street from the beach, the views you'll enjoy are free from the risk of ever being built out. This dual level home called 'Flinders View' and its coveted corner site represent a gift that will keep on giving. The large, level allotment only a moment's walk from the sand surrounds a home where upstairs and downstairs living areas look towards Tomahawk beach while a bright dining space is served by a separately zoned kitchen. Four bedrooms and two bathrooms, including an upstairs main bedroom with an ensuite provide classically comfortable accommodation in a home that conveys traditional beach house character. Options for renovating or creating a fresh residence could be considered, STCA, in an address that offers such sought after proximity to the water and delivers such desirable views of Tomahawk Island and beyond. The garden reaches out both in front and behind, accompanied by a covered BBQ area, water tank, storage shed and garage, further complementing a property that's completed by solar panel efficiency and an unforgettable balcony outlook!
