Beautifully built by local Master Builder Peter Anderson, this stunning and luxurious private timber home is truly perfect for either permanent or upmarket holiday living. Located on the corner of a lovely tree-lined Street within 400 metres of the water's edge of Camerons Bight, this fine home exudes quality, and reflects outstanding attention to detail in every respect. As you enter the home, the soaring and impressive three-metre-high ceilings set the feeling of spaciousness and grandeur as you walk from room to room. The main features of the property comprise an impressive entry hall, a spacious and inviting central kitchen/dining/living area looking onto, and leading out to the covered alfresco pool area, a second living/tv room, 4 bedrooms plus a study (or 5th bedroom), 3 bathrooms, double lock up garage with remote controlled doors, and low maintenance grounds. There are a host of other features including, but not limited to:- ceiling ducted r/cycle air conditioning, double glazed windows throughout, self-filtering pool, ceiling mounted speakers, security system for the home and front gate, solar panels on the garage for pool heating and support heat for the gas hot water service, and bore and pump to irrigate the lawns. A truly fine property you would be proud to own. Inspection: Strictly by appointment only. Contact: Mark Prentice 0408 117 772
