SOLD in 24 hours!

Sublime in every possible sense of the word, number 9 Northward Road is without question the most perfect property transformation we have ever seen in 3 decades of marketing homes. Magnificently renovated whilst retaining its timeless period appeal, its super proud owners have literally spent the last two years painstakingly crafting what can only be described as a 'true work of art'. The attention to detail in harmony with the owners approach to perfection irrespective of cost is evident from when you first set your eyes on this incredible residence. radiating in grand and infinite beauty, its ultra contemporary interiors flow seamlessly over two split levels. The construction of a separate dedicated self contained retreat (still requiring internal fit out) adds a new dimension to existing accommodation levels. Beautifully positioned in its commanding locale on its generously apportioned allotment, it is further enhanced with a pristine show car quality workshop, it being some 12m x 8m in area. Make no mistake - this home is one of the very best sub-million you will see in the district. Call Sam on 0418 953 215 for your own private viewing...
