\$520,000

If you are looking for a good size family home with enough rooms to accommodate the growing family then this is the home for you. The large kitchen has a corner pantry and 600mm appliances with loads of bench space and cupboards. The kitchen opens out to a large open dining and family area and with five bedrooms, all with built in robes and two bathrooms, this home is perfect for the large or growing family. Beautiful hard wood flooring and new carpet throughout, there is barely anything to do but move in. This home has ducted heating and an air conditioning unit. Outside a two or three car single garage allows room for a work shop or for the man cave. A good size fenced in private yard allows for the children and family pets to run around. In an ideal location to town and close to public transport you have everything you want and more. Call Jodie 0438 291 069 or Steve 0408 591 170 today
